Dear Mr. Mancini,

Any inquiries or comments regarding this report may be addressed to Ms. Lyn Kirby, Executive Secretary, Defense Data Integrity Board, 4800 Mark Center Drive, ATTN: PCLFD, Mailbox #24, Alexandria, VA 22350-1700; or by email at lyn.m.kirby.civ@mail.mil.

Joo Y. Chung
Chair, Defense Data Integrity Board

Enclosure:
As stated
In accordance with the reporting requirements established in the Privacy Act of 1974, as amended by the Computer Matching and Privacy Protection Act of 1988, and Office of Management and Budget Circular No. A-108, “Federal Agency Responsibilities for Review, Reporting, and Publication under the Privacy Act,” dated December 23, 2016, the following is provided:

a. Current information about the composition of the Data Integrity Board, including:
   
   (1) a list of the names and positions of the members of the Data Integrity Board;
   (2) the name and contact information of the Data Integrity Board’s secretary; and
   (3) any changes in membership or structure of the Data Integrity Board that occurred during the year.

   See Attachment A for the names and positions of the members of the Data Integrity Board, and the name and contact information of the Data Integrity Board’s secretary. There were two changes to the Data Integrity Board in 2021: the members representing the Army and Navy changed.

b. A list of matching agreements in effect during 2021 for matching programs in which the agency participated, including:

   (1) A brief description of the matching program, including the names of all participating Federal and non-Federal agencies;

   See Attachment B.

   (2) The links to the matching notices and matching agreements posted on the agency’s website at:

   https://dpcld.defense.gov/privacy/matching-agreements

   (3) An account of whether the agency has fully adhered to the terms of the matching agreement.

   The DoD periodically reviewed the agreements to ensure compliance and to determine whether a renewal or re-establishment was necessary. As noted in paragraph (e) below, DoD and the Department of Health and Human Services (HHS) in 2021 re-established a previously expired CMA under which matching activity had continued beyond termination. In addition, while there was a short lapse between the
previous renewal agreement and the existing re-establishment agreements for three other CMAs, the Defense Manpower Data Center (DMDC) and the Data Integrity Board have verified that no matching activity occurred during the short lapse of each of the three agreements.

(4) An account of whether all disclosures of agency records for use in the matching program continue to be justified.

The DoD reviews each matching agreement upon establishment and renewal to ensure only disclosures of Privacy Act-covered records that are necessary to the matching agreement occur. For all external disclosures, DoD ensures appropriate routine uses are in place and maintains an accurate method for accounting of disclosures.

(5) An indication of whether a cost-benefit analysis was performed, the results of the cost-benefit analysis, and an explanation of why the agency proceeded with any matching program for which the results of the cost-benefit analysis did not demonstrate that the program is likely to be cost effective.

A cost-benefit analysis was performed for each of the nine matching programs, and all were favorable or resulted in a conclusion that the match was nonetheless justified. See Attachment B and response to question c below.

c. For each matching program for which the Data Integrity Board waived the requirement for a cost-benefit analysis, the reasons for the waiver.

None. A cost-benefit analysis was performed for all nine matching programs. In one case, CMA 18, the requirement of a cost-benefit analysis showing the matching program as likely to be cost-effective was waived because the matching program: resulted in efficient and accurate consumer eligibility determinations, substantially reduced administrative burdens, provided significant benefit to the public by determining benefit eligibility more quickly while minimizing consumer burden, increased public trust in participating agencies, and improved overall health care delivery.

d. A description of any matching agreement that the Data Integrity Board disapproved and the reasons for the disapproval.

None. No agreements were disapproved by the Data Integrity Board.

e. A description of any violations of matching agreements that have been alleged or identified, and a discussion of any action taken in response.

In last year’s report, it was noted that the Department of Health and Human Services (HHS) and DoD identified a violation that involved the continuation of matching activities following the expiration of a matching agreement. The violation was
reviewed and corrective action taken with the re-establishment of a matching agreement between HHS and DoD. Notice of the matching agreement was published in the Federal Register on July 9, 2021 at 86 FR 7547. The notice received no public comments and the re-established agreement became effective on August 10, 2021.

To verify an Applicant’s or Enrollee’s eligibility for Minimum Essential Coverage through a TRICARE Health Program to assist CMS or a State-based exchange in determining eligibility for the following benefits: (1) advanced payment of the premium tax credit under 26 U.S.C. 36B; and (2) a cost-sharing reduction under Section 1402 of the ACA (42 U.S.C. 18071).

**Authorities:**

**DoD Source Agency**

Cost-Benefit Analysis was conducted but did not show program likely cost-effective. Matching Program found to be justified and requirement of cost-benefit analysis showing program as likely to be cost-effective waived. Reason: matching program - resulted in efficient and accurate consumer eligibility determinations and substantially reduced the administrative burden of HHS and administering entities - provides a significant benefit to the public by determining eligibility quicker while minimizing consumer burden - increases public trust in participating agencies by continuing to use the current matching program, which is less costly than any alternative structure - improves overall health care delivery
